

# **PUBLIC COMMENT AND HEARING NOTICE**

ARIZONA DEPARTMENT OF ENVIRONMENTAL QUALITY  
AIR QUALITY DIVISION

## **Cleaner Burning Gasoline State Implementation Plan Revision: Removal of February and March from the Winter Gasoline Season**

A public hearing on the Cleaner Burning Gasoline (CBG) State Implementation Plan (SIP) Revision: Removal of February and March from the Winter Gasoline Season will be held at 6:00 p.m. on Wednesday, September 5, 2007, at the Arizona Department of Environmental Quality, Conference Room 145, 1110 West Washington Street, Phoenix, Arizona.

The proposed SIP revision seeks EPA approval of state legislation reducing the season for use of wintertime CBG in the Phoenix carbon monoxide maintenance area and other portions of Maricopa County from November through March to November through January. This change will facilitate the transition from wintertime to summertime CBG and reduce the risk of fuel shortages. The SIP demonstrates that the reduction will not endanger compliance with the carbon monoxide national ambient air quality standards (NAAQS), any other NAAQS or any other federal Clean Air Act requirement. The reduction in the Winter CBG season is conditioned on EPA approval.

The public comment period for the draft report will end on closure of this public hearing. Comments postmarked on or before that date will be accepted. Comments should be addressed, faxed, or e-mailed to:

Steve Burr
